

## YOUR TEAM WILL BRING THE MAGIC OF HOLLYWOOD TO LIFE!

LIGHTS – CAMERA – ACTION!

Movie Magic is a unique real time movie making project that will require each team to create an hilarious interpretation of a famous Hollywood genre. Their films will provide a lasting memory of the event, some great entertainment and can also be cleverly used to summarise key company and conference themes.

Each team will become their very own Studio and will be issued with an amazing array of costumes, props, make up, technical equipment (for camera, sound and lighting) along with detailed manuals and training workshops for all aspects of the film making art (e.g. script writing, story boards, make up etc).

Team members will become the stars of the show along with needing to cover off all aspects of production including Directing, Filming, Sound, Lighting, Costume, make Up, Location Scouting, Scripting, Story Boarding etc. Once films are “in the can” team members can prepare themselves for a special viewing where their hand crafted blockbusters will hit the silver screen. Screenings can be organized over dinner with an hilariously delivered Oscars style ceremony complete with tailor made awards and celebrity interview segments.

**Duration:** 4 – 6 hours

**Key Themes:** Creativity and innovation, entertainment, teamwork, diversity and team roles, project management, breaking down barriers, communication, inclusion of key business and meeting content.

**Venue:** Can utilise a wide range of indoor and outdoor locations throughout hotel resort and CBD locations.
