

## Cross – functional excellence to create a team masterpiece!

Your challenge is to produce an impressive masterpiece from many separate canvasses. The team will need to “see the bigger picture” as they pull together, communicate and collaborate to make the project a success.

Individuals, sub teams, and the total team must all work together to produce an effective and impressive end result. The final masterpiece is huge, and will prove to be a remarkable piece of art that the delegates will be proud to have contributed to and can be hung at work as a permanent reminder.

Art truly does imitate life in this challenge as each team can certainly produce a great individual performance, but true success hinges on bringing it all together as a total team. Each canvass may be an artwork in its own right, but the true challenge is to effectively dovetail the work of every team seamlessly together so that the client sees one total masterpiece.

There will be cheers, applause and self-congratulations as they realise the scale of their success and how great things can happen when people work together well.

The company may wish to hang an individual canvas up in every office to act as a reminder of how well things work when they pull together. Or the Big Picture in its entirety could be hung up for all to see.

**Duration:** 2 hours

**Key Themes:** Seeing and being part of the Bigger Picture, cross-functional collaboration, communication, networking and fun, common purpose and focus, unity.

**Group Size:** 10 and up.
