

A tailored team journey and unique team challenge.

Get out and about in your chosen destination with one of the worlds most creative and acclaimed conference team challenge events. The Quest is a multi faceted team project that requires diverse approaches to some creative and unique challenges. It can be adapted to suit virtually any location in the world, and we have used it to suit everything from fun to substantial team and management development outcomes. We extensively tailor each Quest and its team activity content to suit your specific needs and objectives. It can be a simple fun adventure around your chosen destination, or a very carefully tailored and complex team project that mirrors real business issues with complex challenge inclusions. Within a highly original and enjoyable format we challenge teams with a huge variety of profitable opportunities to seek, but with limited time and resources atop numerous constraints and unexpected obstacles. There is an over abundance of opportunities and not enough time and resources, so each team must plan and prioritise for maximum results. Sabre's Quest event has evolved with many different themes as one of our most popular, versatile and effective conference concepts. *Challenge your own teams with it, and you'll see why.*

Duration: 2, 3, 4 hour and full day options available

Key Themes: Team roles and diversity, overcoming task overload, planning and prioritisation, fun and exploration, breaking down barriers, management of time and resources, communication, cross-functionality.

Group Size: 5 and up.

Venues: Highly versatile and can be deployed easily at and tailored for virtually any meeting venue.
