

Save The Planet, Have Some Fun, Build Teams **MAKE A DIFFERENCE**

Matching team activities with genuine environmental causes such as tree planting initiatives or wildlife conservation can be loads of fun, and also add a lasting legacy to your meeting or event. Being environmentally friendly, carbon neutral and aware of global warming are no longer just media hype, these are now serious issues about survival, sustainability and reducing our human “footprint” on the earth! There are many ways you can add some genuine **“Green Credibility”** to your next meeting or event. We can utilise modifications of existing successful event formulas linked to Green themes, or tailor complex real world projects in tandem with environmental / wildlife organisations (available upon request).

QUEST OF THE CARBONATORS!

Each team is issued with special equipment and information packs for a competitive team challenge based on balancing profitability with their environmental impact. The event will ultimately be revealed to be a unifying total team project. In conjunction with local authorities and / or environmental groups we create an amazing team journey to recover all of the necessary tools, equipment and GPS co-ordinates for special propagation trays that are laden with native trees ready for planting. Each team will receive special instructions for the exact locations that these trays need to be transported to, with plenty of twists, turns and surprises on the way to threaten their great project. The winning team will ultimately get to plant the biggest tree during a tree planting and awards ceremony to recognise team achievement and the gesture made to the environment.

MARITIME RESCUE!

Utilising a hotel resort pool or lagoon, each team is required to stage a complex rescue mission of stranded marine life. Teams will receive a full briefing followed by the issue of some rather unusual resources from which to build rescue vessels that must be crewed by brave mariners that will rescue a variety of marine life in accordance with some complex rules and constraints. The volume and timing and this unusual animal rescue can be equated to a cash donation that will be made to a well-known wildlife charity.

Samples only, contact us Info@SabreHQ.com to see how we can tailor it to suit you!
