FASHION FIASCO

FUN, FASHION, TEAMWORK AND STYLE!

To paraphrase the immortal words of fashion giant, Derek Zoolander -

"There's much more to a top team than just being really, really ridiculously good looking!"

Teams are thrust into the ever changing world of high fashion as they become their very own "Fashion House" and are challenged to design, manufacture and then present on the catwalk a range of both practical and fantasy fashion creations. Various team roles will need to be filled and meaningful cross-functional communication engaged in for the selection of assorted crazy items and materials for the design and manufacture of team catwalk creations. Teams ultimately stage a spectacular catwalk extravaganza with carefully selected music, and of course one of their very own team members as the stunning model. Lots of laughs, creativity and some unique parallels with their own team and business challenges unfold with what is a clever real time project. The Fashion Fiasco concept will provide a different medium for the team to explore their own dynamics along with a variety of approaches for meeting customer needs.

Duration: 2, 3 and 4 hour versions available

Key Themes: Cross-functionality, fun, communication, creativity and innovation, break down barriers, planning versus execution, motivation, speed to market, customer focus, branding power, team role diversity, common focus.
